**Please see the answers to the questions that were submitted regarding NKU-41-19 Campus Master Plan.**

1. Q: "I saw the RFP out for the campus master plan. I was curious because I hadn't seen it listed and possibly I just missed a file that better describes what NKU is looking for but I was curious if you are looking for national architects or local or both? Are you looking for engineers to be a part of the team as well? Thanks for your time and if you aren't the correct person to ask these questions to, any direction on who to contact would be appreciated."

R: NKU is looking for a master planning team led by a firm with national experience in campus master planning for higher education institutions. The successful master planning firm will have completed multiple interdisciplinary, complex master plans in the last 5-7 years for metropolitan campuses and/or institutions similar to NKU (or larger in scale, but not smaller than NKU). We do expect an MEP firm to be part of the team as the Master Plan will include a utility and infrastructure planning component.
