Brief Description of Steely Library

In January 2020, Northern Kentucky University received warning from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) on our Library and Learning/Information Resources. This standard “expects an institution to provide adequate and appropriate library and learning/information resources, services, and support for its mission.” As a result, the Steely Library embarked on a reorganization and received an influx of financial support to expand collections, launch new services, and improve facilities.

- **Specific Requirements**

Scope of Services

Much of the reorganization is complete except for two related departments – Collections & Discovery Services and Special Collections & University Archives. The intent of Northern Kentucky University is to obtain proposals to seek a partner to review and provide recommendations regarding the organizational structure, workflows, policies, and technologies in these two departments. With a mix of faculty, staff, and student employees, these departments perform core functions, including materials purchasing, collection evaluation, cataloging, metadata, archival description, access, systems, and records management.

Proposals should aim to identify strengths and gaps in position descriptions, workflows, services, and skillsets to better align with national trends. The goal is to strengthen effectiveness of the two departments, including how they can potentially collaborate, expand collection models, achieve annual spending of collections dollars, create efficient workflows, and strengthen the reputation of the library's collections and services. Proposals should focus on the institution's Success by Design Framework and provide recommendations that best support students.

- **COST**

In this section, provide complete pricing.

Provide a comprehensive project cost not to exceed \$25,000. The cost estimate should be itemized and should include project personnel and the number of estimated hours for each. Include pricing for the following:

- Cost not to exceed \$25,000 and should include:
- Costs related to planning and meetings with library personnel and relevant stakeholders
- Travel costs for onsite visits
- Disclosure of any variable costs and estimates
- Payment terms and schedule
- Identify other expenses that most effectively could/should be incurred by your firm and be reimbursed by the university

- **Proposal Evaluation Process**

A University Evaluation Committee will evaluate qualified proposals according to the following evaluation criteria. Vendors are responsible for reviewing the criteria below and providing appropriate and sufficient information within the proposal to enable the University Evaluation Committee to assess the proposal. Based on this evaluation, the University Evaluation Committee may recommend a short list of vendors for either an on-site, telephone, or web-based presentation regarding their proposal (format to be determined by the evaluation committee). Vendors may be asked to present on only a portion of the proposal, as they may no longer be under consideration for the entire RFP.

- **Evaluation Criteria**

Proposals will be evaluated based on the following criteria:

- | | | |
|---------------------------------------------------------------------|-----|-----------|
| • Vendor skillset/capability to do work | 25% | 25 points |
| • Past effectiveness as indicated in the proposal and by references | 15% | 15 points |
| • Timing to complete project | 30% | 30 points |
| • Cost effectiveness/ROI | 30% | 30 points |

- **Presentations**

The search/selection committee will determine if presentations will be needed after reviewing written proposals. The presentations will be conducted virtually.
