

# NKU Herrmann Science Center GMP 03 - Building Package

- The project is an approximate 80,000 GSF addition to the existing 175,000 GSF Herrmann Science Center. The total scope for this project is roughly \$80MM for the construction of a building addition and limited renovations to the existing building, and construction of site amenities and improvements.
- The scope for this GMP includes: selective demolition, structure, building envelope, interior finishes, and MEP systems.
- Project excludes prevailing wage rates and includes sales tax.
- A pre-bid meeting will be held at Skanska's construction trailer in parking lot P on Friday, October 18, 2024 at 9:30am. Skanska is accepting electronic bids by noon on Friday, November 8, 2024.
- Interested bidders should contact Shannan Plogsted at [shannan.plogsted@skanska.com](mailto:shannan.plogsted@skanska.com) for prequalification instructions and access to bid documents. Bidders must complete prequalification documentation prior to bid.
